COLLECTIONS Private collections, Arizona and nationwide

ARTIST STATEMENT My work is rooted in faith and built on the belief that beauty can emerge from any season. I create oil and mixed media paintings that begin with scripture written into the ground layer invisible, but present. Gold leaf, layered acrylics, and oils build outward from that foundation. Each named series explores a specific theme: redemption, stillness, radiance. My paintings speak to collectors who want art that carries meaning beyond the aesthetic, work that holds something true at its center
